

UNI M

Uni M is an extension of the Uni chair range designed in-house at New Design Group. The original Uni chair is a simple and stylish moulded polypropylene chair perfect for educational use or in cafes and dining areas. It's cousin 'M' uses a more advanced moulded plywood shell that accentuates the curves of Uni, giving it a sophisticated personality that is more akin to meeting spaces. The choice of arms, bases and upholstery allows Uni M to suit contexts of varying degrees of formality.

Arm options

Fully Upholstered – Metal – No arms

Base options
